

IInputDataProvider

```
graph BT; Controller[Controller] --> IInputDataProvider[IInputDataProvider]
```

The diagram illustrates a dependency or relationship between two components. At the top is a gray rectangular box labeled 'IInputDataProvider'. Below it is a white rectangular box labeled 'Controller'. A blue arrow points vertically from the top of the 'Controller' box to the bottom of the 'IInputDataProvider' box, indicating that the Controller depends on or interacts with the IInputDataProvider interface.
